

PRODUCT INFORMATION SHEET

CHLORFOAM

CHLORINATED CLEANER and SANITISER

DESCRIPTION

Chlorfoam is a concentrated high foaming, grease cutting sanitiser. Chlorfoam features a super chlorinated bleaching agent and germ killer. Chlorfoam provides a dense cleaning and sanitising foam, which penetrates heavy build ups of grease, fats and oil on all types of surfaces found in commercial kitchens.

AREAS TO USE

Hard surfaces that require heavy duty cleaning and sanitising such as :

- Kitchen floors and surfaces • Coolrooms
- Docks • Food processing establishments
- Refrigerated transport

DILUTION INSTRUCTIONS

Normal Use :

Dilute 1 part CHLORFOAM with 40 parts water.
(20ml per 750ml bottle)
(120ml per 5L water)

Heavy Use :

Dilute 1 part CHLORFOAM with 20 parts water.
(40ml per 750ml bottle)
(240ml per 5L water)
