Power Supplies and Heatsinks

1/100,000 accuracy
Imported temperature
sensing line, accurate
temperature production
Tolerance 0.5°C
Compatible with
110V-240V

The anti-falling design

Adopt the screw design that will not fall off even if it is loosened. When the screw is unscrewed, it is still attached to the machine to prevent the screw from being lost.

AIR CUSHION MACHINE

Control Panel
