

FlexLite is a thin yet tough, folded-edge, pre-stretch film designed to fit our fatigue-fighter film dispensers, Bolt™ and Bolt™ Xtra. With FlexLite, your hand-wrapping is simply more efficient and consistent.

Pre-Stretch for Effortless wrapping

Folded Edge for Additional Support & Durability

1" Core, Less Paper, Move Savings

Lightweight

Low Consumption Per Pallet

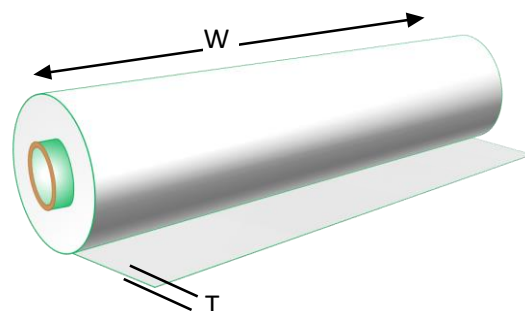

Ensure Sustainability, Retained Quality

TECHNICAL DATA

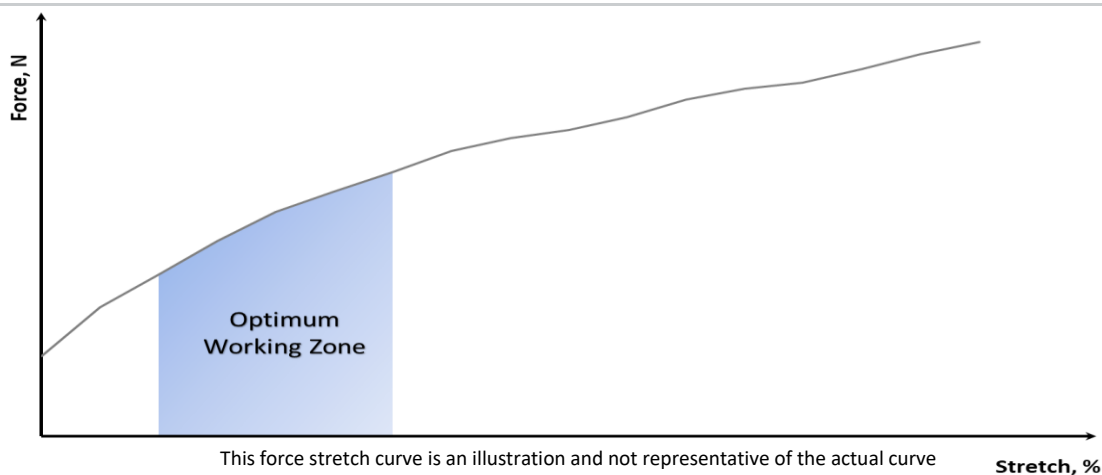

Material	LLDPE
Thickness	5 µm
Width	380mm (390mm)

Possibility of customisation

For customisation, please consult your sales representative

Mechanical	Typical Value	Test Method
Tensile Strength at MD	≥ 30.60 MPa	ASTM D882
Tensile Strength at TD	≥ 9.00 MPa	ASTM D882
Break Elongation at MD	≥ 40.50 %	ASTM D882
Break Elongation at TD	≥ 369.00 %	ASTM D882
Puncture Force	≥ 13.95 N	FPT-750
Optimum Working Zone	5 ~ 20 %	FPT-750
