1

Honeycomb Paper Wrap

Honeycomb paper dispenser packaging box with logo print is an 100% eco-friendly alternative to other types of filling materials.

Eco-Friendly Packaging

honeycomb dispenser box is 100% sustainable, recyclable, biodegradable, and compostable. With this packing material made from kraft paper, you can tightly wrap odd-sized and over-sized items, even deer antlers.

2

3

Easy To Use

The product arrives flat and expands as you pull it out of the compact self-dispensed box. It is a multipurpose and cost-effective packaging material with a high protection rate and operational efficiency. It is easily hand torn and no scissors or knife is needed.

Protection For Gifts

When wrapping gifts with cushioning paper, this honeycomb-shaped perforated cushioning wrap roll can provide additional protection and cushioning by supporting your product and absorbing any shocks, vibrations, and scratches. It must be a pleasant surprise to receive the gift intact.

4

5

Wide Range Of Uses

These honeycomb buffer papers are suitable for cosmetics, ceramics, artwork, stationery, wine boxes, glass products, etc. Can be used to wrap items, reduce the accumulation of plastic packaging materials and save storage space.

Save Shipping Cost

Honeycomb paper box dispenser help you drastically reduce shipping cost, only one-third of the traditional shipping materials weigh. Cost-effective alternative to shipping products in cartons.
