1

Green Honeycomb Paper

Honeycomb wrapping paper is an 100% eco-friendly alternative to other types of filling materials.

Good Cushioning Effect

This honeycomb paper can be stretched into a net shape suitable for packaging irregular items and provide effective cushioning to protect items.

2

3

Easy To Use

The packaging is done manually, no additional cutting tools are needed, which can improve packaging efficiency. The packaging process does not require auxiliary materials, such as glue, tape and scissors.

Protection For Gifts

When wrapping gifts with cushioning paper, this honeycomb-shaped perforated cushioning wrap roll can provide additional protection and cushioning by supporting your product and absorbing any shocks, vibrations, and scratches. It must be a pleasant surprise to receive the gift intact.

4

5

Wide Range Of Uses

These honeycomb buffer papers are suitable for cosmetics, ceramics, artwork, stationery, wine boxes, glass products, etc. Can be used to wrap items, reduce the accumulation of plastic packaging materials and save storage space.

Save Shipping Cost

Natural kraft honeycomb mailers help you drastically reduce shipping cost, only one-third of the traditional shipping bags weigh. Cost-effective alternative to shipping products in cartons.
