

Pacmasta[®]

Woven & Composite Strap Tensioner

Pacmasta ZP-CT32A

Designed to solve your tensioning needs for both composite and woven strapping, covering a range of widths from 19mm up to 32mm. The ZP-CT32A is suitable for strapping pallets or groups of goods. The ergonomic and user-friendly design and high tightening power will make your cord strapping and tensioning easy, effortless and efficient!

Simple Single Handed
Operation

Low center of gravity
reduces operator fatigue

Quick Reverse Button for
quick tool removal after
use

Woven & Composite Strap Tensioner

Pacmasta ZP-CT32A

Pacmasta[®]

STANDARD FEATURES

- **Single handed operation:** Automatically tensions and cuts
- **Pre-programmed touch panel:** Auto, semi, and manual tension modes and tension force adjustment even if the voltage drops.
- **Quick Reverse Button:** allows for easy reversal of the windlass tensioner for quick tool removal after tensioning.
- **Lightest on the market at 3.6 kg, including the battery.**
- **6 degree angle on the handle bar.** Lessens wrist fatigue while tensioning on flat surfaces and during vertical operation.
- **Low center of gravity** reduces the overall height of the tensioner to lessen operating fatigue.

TECHNICAL DATA

STRAP TYPE	Composite & Woven Cord Strapping
STRAP WIDTH	19 - 32mm; Thickness: 0.85 - 1.65mm
NET WEIGHT	3.6kg (including battery)
TENSIONING FORCE	6 settings (300 - 800daN)
TENSIONING SPEED	35mm/Second
BATTERY	Bosch 18V Li ; 350 Cycles per charge
