

Product Description

YS61 is a Blue 60 Micron Polyethylene Protection Tape with a medium high tack emulsion acrylic adhesive system.

Product Features

- A thin blue translucent/clear PE backing
- A medium high tack (1.96-2.35 N/cm) solvent-free acrylic adhesive
- The acrylic adhesive confers a degree of UV stability on the product and will perform on most surfaces outdoors for up to 30 days
- RoHS compliant

Benefits

- ✓ Suitable for low surface energy finishes like plastics, powder coats and mildly textured surfaces
- ✓ Best thin protection tape for narrower width applications

Key Markets

- Surface protection and sealing of steel HEVAC ducts to protect from contamination during fabrication, transport and installation.
- As a "Mask & Peel" tape on surfaces to protect from dust, dirt and paints (particularly when sprayed) e.g. on doors with glass panels
- As a mask to protect surfaces from over spray of paints or render splatter e.g. guttering, down pipes, balustrades, fuse boxes, letter boxes etc
- Sign & Display to protect signs and artwork from damage in transit and during installation
- Benchtops and other surfaces during the build process to stop marks—works on textured surfaces
- The product is relevant to anybody fabricating products, be they in metal, plastic, glass, wood or other medium. The aim of any surface protection product is to act as insurance against damage. Like any insurance the type of cover that is required depends on the value of the surface being protected and the damage that might occur. **YS61** is a particularly versatile product

Note: This product is not recommended for use on freshly painted or coated surfaces.

DISCLAIMER:

Values: All values presented have been determined by standard test methods and are average values only.

Recommendations: Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

Warranty: We can only warranty our products to the level that they are consistent with our Product Information Sheet values

BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.
